- Proficient in Git and GitHub for version control and collaborative coding.

Soft Skill

- Adept problem solver with structured reasoning.
- Clear communicator fostering team collaboration.
- Efficient time manager ensuring quality results.
- Swift adaptor to new challenges.
- Committed to continuous learning for staying current in the industry.
- Good Critical and Logical Thinker

Education Background

- **Kumaraguru College of Technology,Coimbatore**

  YEAR:2022-2026
  CGPA:9.3

- **Sri Arunachala Matric Higher Secondary School,Cuddalore**

  YEAR:2021-2022
  Percentage:96%

About Me

As a third-year IT student at Kumaraguru College of Technology, passionate about web development and data analysis. I have created projects such as a weather app, to-do list, and music player. In data analysis, I've worked on HR book analysis and Netflix analysis using Tableau and Power BI. Proficient in Figma, Canva, and MIT App Inventor, I serve as the Event Management Lead in the Kigen Forum and Visual Buzz Creator in the Full Stack Web Development Club. With various internships and certifications, I aim to create impactful solutions in both fields.

Professional Experience

- **Blue Prism Automation Virtual Internship** (Apr 2024 - Jun 2024): Automated complex workflows, enhancing operational efficiency and gaining practical RPA skills.
- **CodeSoft Web Development Intern**ship (Jul 2024): Contributed to various web development projects, honing coding and design abilities.
- **CodeAlpha Frontend Internshi**p (Sep 2024): Developed responsive user interfaces, improving user experience.
- **Kigen Forum Event Management Lead** (Sep 2023 - Present): Led workshops and events, fostering collaboration and teamwork.
- **Visual Buzz Creato**r (Aug 2024 - Present): Designed compelling visual content, enhancing engagement for club activities.
- **Wise-A-Thon Hackathon Participant (**Sep 2024): Collaborated with a team to develop innovative solutions in a competitive environment.

Certification

- **SQL Fundamentals and Data Analytics and Visualization Job Simulation by Accenture**
- **UiPath RPA Certification,Google Cloud Gen AI Study Jam**
- **HTML, CSS, Java Certification from Great Learning**
- **Excel and Git courses completed on Coursera**
- **Python and Java certifications from HackerRank**
- **MongoDB Certification,AWS Certification**
- **Introduction to Machine Learning with R from Simplilearn**
- **Data Analysis with Python from FreeCodeCamp**

Projects   :

Data Analytics Projects: HR Book Data Analysis, Social Media Analysis, Electric Vehicle Sales Report,Covid-19 Analysis

Machine Learning Projects: Image Classification, Defect Detection, Movie Recommendation

Web Development Projects: Indoor Navigation Website, Calculator, To-Do List, Weather App, Simple Bus Booking Website

MIT App Inventor Projects: College Website, Timer, Calling Application
